WHY CHOOSE TRAVERTINE & PAVERS?

Travertine and pavers are excellent choices for enhancing your outdoor living areas. They provide durability, aesthetic appeal, and value to your property.

Whether it's a patio, walkway, driveway, or pool deck, a professional installation ensures a lasting and beautiful finish.

OUR INSTALLATION PROCESS

Base Material

1

- **Importance:** A solid foundation is crucial for the longevity and stability of your installation.
- **Process:** We use high-quality base materials, such as crushed stone or gravel, to create a stable sub-base. This prevents shifting and settling over time.

Proper Level/Slope

2

- **Importance:** Ensuring the correct level and slope is essential for both aesthetics and functionality.
- **Process:** Our experts carefully grade the base material to achieve the desired level and slope, ensuring water drains away from your home and prevents pooling.

Drainage

3

- **Importance:** Proper drainage extends the life of your installation and prevents water damage.
- **Process:** We incorporate effective drainage solutions, such as French drains or weep holes, to manage water flow and prevent erosion or water accumulation.

Polymeric Sand

4

- **Importance:** Polymeric sand binds the pavers together, reducing weed growth and insect infestation.
- **Process:** After laying the pavers, we fill the joints with polymeric sand, which hardens upon wetting, creating a durable and stable surface.

Cement Border

5

- **Importance:** A cement border, or edge restraint, keeps the pavers in place and prevents shifting.
- **Process:** We install a cement border around the perimeter, ensuring your pavers remain securely in place and maintain their shape over time.

WHY CHOOSE KO'S LANDSCAPING?

Expertise: Our team has years of experience in professional travertine and paver installations.

Quality Materials: We use only the best materials to ensure your project stands the test of time.

Customer Satisfaction: We are dedicated to delivering outstanding results and ensuring our clients are fully satisfied with their outdoor transformations.
